

# MASTER CLASS

Thursday  
February 3, 2022

12:50 p.m.–1:50 p.m.  
EST

## Webinar

Information on how to access the webinar will be provided via email closer to the webinar date

# WEB3 BUILDING WORKSHOP: NFTS, DAOS, AND SMART CONTRACTS

Providing competent legal services in the rapidly growing Web3 space requires attorneys to have a working familiarity with the underlying technology and tools. In this hands-on workshop, NYLS Professor **Houman Shadab** will lead students in learning how to use technology that mints and sells nonfungible tokens (NFTs), launches distributed autonomous organizations (DAOs), and deploys smart contracts to blockchain.
