

WILF IMPACT CENTER CONVERSATIONS

Wilf Impact Center Conversations is a speaker series that highlights how current events impact civil rights and civil liberties.

NUCLEAR MELTDOWN IN AMERICA

The new Netflix docuseries, *Meltdown: Three Mile Island*, which features Adjunct Professor Joanne Doroshow of the Center for Justice & Democracy, tells the story of the worst nuclear accident in U.S. history.

Join Professor Doroshow for a discussion on how she took on the nuclear industry as a young lawyer, why this Netflix series was made, and how our laws may make nuclear energy a risky and unsafe answer to climate change.

Pizza will be served.

This event is co-sponsored by the NYLS American Constitution Society
