

CLE SERIES

Thriving in Smaller Firm Practice

RSVP: www.nyls.edu/careerRSVP

This three-part series will provide practitioners in smaller firms with the perspectives they need in three foundational areas: business development and client management, litigation practice, and legal research. Each program will be an interactive session benefiting both newer practitioners and more experienced attorneys. This series also includes a networking event for small firm practitioners to network and learn from each other. These events are also open to law students.
