

Artificial Intelligence in Arbitration and Mediation: What ADR Professionals Need to Know (and What They Do Not)

DATE**Wednesday, March 11, 2026****TIME****5:30 p.m. – 6:45 p.m. EST****PLACE****Virtual****COST****Free of charge****RSVP****www.nyls.edu/ADRrsvp1**

Information on how to access the livestream will be provided following registration.

CLE

1.5 credits in Areas of Professional Practice (NY transitional and nontransitional)

Artificial intelligence is increasingly present in dispute resolution, from case management and document review to party submissions and evidentiary analysis. This program provides a clear, non-technical introduction for arbitrators and mediators, focusing on ethical responsibilities, procedural fairness, and practical judgment rather than tools or coding.

Professor Appleton is the Faculty Director of the American Bar Association's TechCred Program for arbitrators and neutrals. This session will emphasize how ADR professionals can maintain control over technology while safeguarding legitimacy and enforceability.

Barry Appleton,
Distinguished
Adjunct Professor
of Law; Co-
Director and Senior
Fellow, Center for
International Law
