The Wilf Impact Center and presenting sponsor Dorf Nelson & Zauderer LLP are hosting a screening of CURED, a timely and powerful documentary. The award-winning film tells the story of the activists who brought about a pivotal but little-known victory in the movement for LGBTQ+ equality: the American Psychiatric Association's 1973 decision to remove the diagnosis of homosexuality from its manual of mental disorders. Following the screening, New York Law School Professor Emeritus **Arthur S. Leonard** will speak with CURED co-director **Patrick Sammon** and Lambda Legal Senior Counsel **Omar Gonzalez-Pagan** about today's struggle for LGBTQ+ equality and the lessons that can be learned from the heroic activists featured in CURED.
