Professor Michael P.

Goodyear, NYLS

Roy Kaufman, CCC

Professor Dr. Eleonora

Rosati, Stockholm University

Molly Stetch, STM

Join us for a discussion on the evolving relationship between artificial intelligence (AI) and copyright. As AI continues to transform how creative works are produced, used, and disseminated, courts and policymakers across jurisdictions are grappling with its implications for copyright law and the need for appropriate governance frameworks. Using a recently released IFRRO Guide as a starting point, we will discuss the potential role of sustainable licensing models.
