February 26–27, 2027

New York Law School

185 West Broadway
New York, NY 10013

The Soccer Negotiation Competition will focus on the biggest and fastest-growing sport in the world: the professional soccer industry. It will be centered on professional soccer contracts and Name, Image, and Likeness (NIL). Teams will represent clients in a simulated negotiation based on a confidential fact pattern inspired by current issues in sports law. This competition is designed to challenge participants' ability to negotiate creative solutions, advocate for their clients' interests, and navigate the evolving landscape of athlete representation and commercial rights.
